

The attached draft regulation dated 12 October 1964 for the CIA Retirement and Disability System was classified "Secret" and still bears that stamp. However, in order to facilitate review of the regulation with a minimum of security encumbrances, we have substituted an unclassified version of page 3 which is the only page in the regulation which contained classified information. As it now stands the regulation in fact is unclassified. The classified version of page 3 will, of course, be made available to you for your review.
